

Troops Ready to Invade US: Dream

by David Michael, info@glentivar.org

Canada-US Border

I was greatly disturbed as I slept on a night in December 2007. I was then was partially awakened and found myself hovering above the Canada - US border near Montana looking down upon the border. I was called 'Windwalker' in this encounter by my spirit host (angel?) as the facts were revealed.

As I looked down at the border (about mid-US on the map) a word was spoken to me that there are 600,000 (yes - six hundred thousand) NWO-UN forces at the Border now ready to invade the U.S.

Tunnels for Invasion

Then I saw multiple tunnels underground along the Border that penetrated deep into US territory as hidden underground highways to be used for the invasion. I strongly understood the invasion was imminent and the time table for the invasion was moved-up (sooner) than what was previously planned due to some international incident that will soon be revealed by the media. I was greatly disturbed by this in my Spirit. I then was fully awakened.

I now understand the title Windwalker was to represent a group of prophet-seers that will hear and foretell what is to come upon the world before it happens. I was counted among this group. This is to provide to the Church the opportunity to be ready and not be caught unaware of the difficulties to come.

Since I find myself often among a group of viewers, I am therefore only one among many Windwalkers that are being communicated with in these last days.

The NWO-UN military forces along the Canada-US border according to Internet sources (perhaps valid) are primarily comprised of E. German, Russian and Chinese military. It is also noted from Internet sources that there are two transportation tunnels already built between Russia and Alaska and the others between Siberia and Canada.

The southern Border has NWO-UN military primarily comprised of Mexican, Middle Eastern and S. American personnel. The tunnels provide a covert and sudden invasion capability for a very large military force that can takeover the major cities along the border. It may also provide access to US train terminals (in train yard warehouses) to load military personnel into trains to be quietly transported to cities farther south of the Canadian border.

The whole invasion could occur within a 24 hour period or even in one night as we sleep. It is believed that Martial Law will concurrently be instituted by the President and the NWO/UN forces will be described as 'peace-keeping' forces to assist with Martial Law.

National ID

A 'national' ID of all people in the US using the ID Chip will be required so the government can determine your whereabouts anywhere in the US. The ID Chip has been approved for use in all new passports for travel in the US, Canada, Caribbean and Mexico. This suggests Martial Law and an ID will be provided within all of these countries who are members of the North American Trade Agreement.

Another act of the President to shortly follow will be to command the NWO-UN forces under Martial Law to go house to house to confiscate ALL weapons and firearms to assure peace under Martial Law. The international incident that will be used to justify Martial Law is not known to me at this time. My sense is that it will be of greater devastation than the 9-11

incident in the US.

Based on what I am seeing, I would recommend not living in the large US cities. Rather, move out into the country where you can grow/raise your own food and be off-grid from utility companies.
