

Goliath's Sword Found: Dream

by David Michael, info@glentivar.org

The Dream

In the early morning of the 9th of June, I had a dream where I was in a dense evergreen forest and as I was walking through a small clearing, I saw the hilt of a sword just emerging from the earth. I stopped and reached down and pulled the sword out of the dirt. As I was pulling out the sword, I heard an angel above and behind me say, "The Sword of Goliath... to fight the Nephilim." The sword was rusty and was not fit for battle until it was cleaned and sharpened. My task (as a blacksmith – which I am) was to prepare the sword for battle.

Battle Against the Nephilim

As I awoke, I realized the battle against the Nephilim was coming in great force and that the Church was not prepared for this kind of battle. Thus the sword was rusty and unsharpened. It had to be cleaned and sharpened which is the training of an army to be ready for this kind of battle in the spiritual and physical realm as the 3rd and 4th dimensions merge in these last days..

The necessity of the full Armor of God was also needed and must be rightly fitted to each warrior since the battle was first spiritual and then played out in the physical world. I believe the future battles will be very real with real swords and with real armies but only the pure in heart and the faithful will be victorious in battle. It is reality that such wars are first fought and won in the spiritual realm that will determine the outcome of who lives and dies in the physical realm.

King Arthur

History suggests that King Arthur of the Seed of the Kings of Israel also fought against the the Nephilim in Wales with the enemy described as 'giants'.

The sword he used was named Excalibur and some believe it was the actual sword of Goliath brought to Britannia by the royal line of the Queens of Avalon from the Hebrew State of Septimania in France circa the 3rd or 4th centuries.

The State of Septimania is known in history as founded by James, the royal brother of Jesus and represented the ruling line of King David after the resurrection and ascension of Jesus.

This line was carried into the line of Queen Vivian of Avalon, the mother of Gwenivere who married King Arthur. It is possible that it was from Queen Vivian that the sword Excalibur originated – the alleged sword of Goliath.

Cleansing the Holy Land

The shepherd David was the one chosen by God (YHWH) to lead the armies of Israel into battle against the Nephilim Goliath. King David reunited Israel and Judah and used the sword of Goliath to overcome the many forces of the Nephilim still residing in Canaan.

Apparently the land of Canaan was full of this hybrid species birthed from the fallen angels and the daughters of men. They needed to be cleansed from the earth as commanded by God (YHWH).

This cleansing of the land would enable the seed of Adam to again rule the Holy Land being last ruled by the line of Melchizedek (Shem) as the Priest-King of Salem (Jerusalem) who blessed Abraham.

Third Crusade Fights the Nephilim and their Demons

The story to follow may be real (or may not??) but is acknowledged by the Templars of Britannia as more a history than a myth.

The Great Disjunction

In the year 1192, Richard the Lion heart, King of England, ventured across Europe during the Third Crusade. At the height of this aggression the fabric of reality was briefly torn, allowing a short but devastating influx of magic and spirit-kind to be unleashed across the Earth.

When Saladin's forces failed to pay tribute demanded by the crusaders, Richard's trusted adviser whispered to his king that the Muslims should be punished and their threat ended for all time.

The adviser told Richard to gather several holy artifacts to the city so that a divine ritual could be initiated to bless Richard's forces and curse their foes. Believing his counsel, Richard unknowingly brought several powerful artifacts together -- and these artifacts, relics of creation itself, and of such power, began to undo reality simply through their congregation.

As the material fabric of Earth tore, spirit-kind and magic were unleashed across the world. Hordes of demons and strange beings of power sprung up in the streets of Acre, surrounding Richard's army.

After heavy losses, Richard and Saladin joined forces to wade through the hordes. With incredible valor, the two heroes wounded the adviser, now revealed to be a 'dark' magi of considerable power. The adviser fled, along with a host of the evil creatures, allowing Richard and Saladin to seal the breach.

Although the battle lasted but a few hours, the Disjunction, as it would come to be called, unleashed vast forces across the entire planet, changing history forever.

Realizing that the ritual could never be allowed to occur again, both Richard and Saladin swore to divide the relics and secure them in their respective lands. The Knights Templar agreed to protect relics in the west, while the Order of Saladin secured several relics to the east. These two noble orders would band together over the centuries for a series of 'hidden' crusades against the forces of evil that escaped the Disjunction.

My History

My direct male forebearer, Sir Michael of Carrington, fought in the 3rd Crusade at Acre at this battle. This family story may well have been this history that has been kept hidden until now.

The crest he carried into battle at Acre was the Unicorn (symbol of Ephraim) and the crown (royal lineage) placed over the neck of the unicorn.

Many Wars in History

Wars against the Nephilim have been fought in the days of Cain (circa 4000 BC), the days of Noah and Enoch at the time of the great flood (circa 2300 BC), the days of Abraham and Melchizedek/Shem (circa 1500 BC), by Moses in Egypt (circa 1200 BC), by King David in the land of Israel (circa 1000 BC) , By Jesus on the cross and His Church (circa 34 AD), by King Arthur (circa 580 AD) in Britain and by King Richard (circa 1100 AD) in the Holy Land.

The war of the seed of the god-man Adam against the Nephilim is not over but continues into this modern era. We will soon see all of the forces of the universe (including alien species) involved in these

future battles on earth.

Spiritual First

To reemphasize a truth, the battle is first spiritual and then occurs in the natural or physical realm. Most of the battles that I now fight are fought in my sleep and recorded in my dreams. Technology cannot save the world – only faith in the true Messiah who empowers his armies to be 'overcomers' by the “blood of the lamb [of Y'Shua] and the word of their testimony [holy living]” will work. This we can be assured of as the faithful of YHWH prepare for battle.
