

# Meeting 5 Grays: Visitation

## The Encounter

In the night of October, 27<sup>th</sup>, 2008 I was sleeping in my home in Aurora, Colorado, I was then was awakened by a presence in the room. As I opened my eyes, I saw 5 alien Grays standing at the foot of my bed watching me. What was interesting about them is they were all shapes and sizes with the tallest about 6.5' tall and the shorter about 4' tall. Some were gray and the tall ones were pure white in color. Some looked fat and others more thin. They all seemed to be wearing a cloak. I could only guess they represented different species of Gray aliens who had come as a group to study me. They seemed like emissaries sent by their respective governments.

They just stood there and watched me without moving as if they were affixed or even hypnotized. I sensed they were trying to read my thoughts and emotions using telepathy.

## My Question

When I was more fully awake, I looked at them and asked them, "What are you doing here?" They did not move. I then just turned over and went back to sleep. They were all gone by morning. I had no fear of them as they did not seem threatening.

## Why the Visitation

This encounter confirmed to me that we as humans are being watched by aliens. This occurred just after I had some mind-opening correspondence with the Grand Master of the Hereditary Templars of Britannia. I had recently found out that my forefathers were Knight Templars for the last 800 years. My dad would deny any of this family history but it is true as I discovered when I traced our family tree to the Third Crusade with my forefather Prince Michael serving under King Richard the Lion heart as his Standard Bearer in the siege of Acre.

I had recently discovered from the evidence provided by the Templar Master (Magi as he called himself) that aliens do exist. This shook me to my very core as a Christian. I was struggling to reconcile these facts with my very isolated faith. It was no longer angels and demons at war, it was a multitude of other alien species that were also stake holders in the experiment of human creation.
