

Alliance of Ephraim, Judah and Native Americans: Prophecy

by David Michael, info@glentivar.org

Call for Unity

As I was awakening on the morning of the 10th of February, 2008, I heard the call of God go forth over America calling for an alliance to be forged between the princes of Ephraim and Judah and the Chiefs of the Native Americans. It was also shown that this alliance shall be in preparation for more difficult times that are to come to America and the world.

The unity of the 12 tribes of Israel has not existed since the time of King Solomon. Generally today Judah still hates Ephraim and Ephraim views Judah with contempt. 'Jews' running the State of Israel have sought to give the God-apportioned land (Kingdom) of Ephraim (Shiloh) to the Palestinians thus widening the gap for unity between Judah and Ephraim. This may not be the full reality since many that call themselves Judah (Jews) are not Jews by blood but by conversion and are not of the seed of Jacob (Israel).

Extensive historical research as confirmed by yDNA testing has determined that a large majority of the modern Ashkenazi Jews originated from a mass conversion of the Khazars in circa the 10th century. These Khazars are descended from Edomites (of the line of Esau) and the Turks. It may be true that their daughters have intermarried with male Israelite Jews of the seed of Jacob yet they have no yDNA connection to Jacob (Israel) whatsoever.

Some have noted that such a dominance of blood Jews by Khazars (they run modern Israel today) are the descendants of Esau seeking to infiltrate true Israel and reclaim the birthright that he lost to Jacob (Israel) in exchange for a bowl of lentils. With this Khazar infusion came also the heresy of Kabbalism.

However, I have observed that many of the blood Jews of the seed of Abraham, Isaac AND Jacob are at peace with Ephraim and many yDNA Jacob Jews have come to accept Y'Shua as Messiah who has united the remnant of true Judah and Ephraim.

As to the call for alliance with Native Americans, it is to be an alliance of blood via marriage and/or ritual. Many Native American tribes believe they have a blood connection to the Biblical Hebrews and some seek to reclaim the birthright of this origin. Bringing history a little closer to our modern times, the princes of Ephraim have predominately been living among the Celtic peoples for the last few thousand years.

There is now compelling archeological evidence (still ignored by grant-paid archeologists) that the 4-corners Anasazi people were in fact a cohabitation (alliance) between the Hebrew-Celt (Ephraim) and the Native American circa 800-1200 AD. It is my belief that it will be with the Native American tribes who believe they are descended from the Anasazi that such an alliance will be most readily forged.
