

Abduction Attempt by Reptilians: Event

by David Michael, info@glentivar.org.

The Event

In the middle of the night in October 23, 2013, I had a friend who was staying with me in one of the rooms of the abbey. I was awakened by her moaning in the other room and listened. The sound was if she was under some kind of spiritual attack that prevented her from moving as if she was captured by some unseen power.

I started to pray in the Spirit and within a few minutes, she shot up out of bed and started yelling at unseen evil entities. She then ran out side into the night still yelling and telling these evil entities she is not one they can be taken and that her life is in the hands of YHWH.

After some time, she calmed down and told me her story.

Attacked by Royal Reptilian Brothers

In her sleep, she was attacked by two reptilians who wore crowns. She believed these were of the royal class of Reptilians and were very tall in the region of 7-8 feet. They were cloaked and sought to abduct her and take her from the Abbey retreat. As I began to pray, she was released from their hold and was then able to wake up and move, get out of bed and then run outside.

Y'Shua Stops the Abduction

She then described how she saw them in the spirit with Y'Shua arriving in seeking to take them captive. One of the royal brothers was killed since he resisted capture but the other was captured. Then she saw the captured royal brother kneeling before the throne of Y'Shua in judgment for what he had done. This Reptilian took the crown off of his head and laid it on the floor before Y'Shua and bowed yet further in submission to the King of Kings. It was her understanding this creature was allowed to live and began to serve Y'Shua as all creatures should do.

Later she described how she saw massive ships outside and war occurring between them. The Reptilians were in heated battle with the Andromadans who as prayer occurred with the arrival of Y'Shua, were able to then overcome this invasion of the Abbey.

Thoughts

In this very real scenario, the Royal Reptilians presumed to take a daughter of the seed of King David. Their objective is well known in that they seek to take her and produce a hybrid species of Reptilian and Human that can claim the rights as the seed of King David. This royal effort was the circumvent that which YHWH had designed where only the human seed of the line of Adam, Abraham and David can sit on any throne on earth. This reptilian army in backing the agenda of the Royal Reptilians was to take this hybrid child and make claim to rule over the human people of earth.

By the grace of YHWH, this was never allowed to happen.

In the next week, it was discovered that there was a massive reptilian presence still lingering just over the hill to the abbey in a secluded valley known as Pikes Peak National Forest. Prayers along with anointing the area was done and it is understood the Reptilian presence was blocked from any further assault upon the people at Glentivar. Since that time, the land has been sold and the Abbey moved to the Buena Vista, Colorado.
