

Three Arks: Dream

by David Michael, info@glentivar.org

The Dream

In the early hours of the 9th of February 2013, I saw three Arks of the Covenant like the one made by Moses for use in the Tabernacle in the wilderness. The arks were a very ornate rectangular box with angles on top. All three were covered in gold.

First Ark

The first Ark I knew to be the original Ark made by Moses after he saw the Ark of YHWH in heaven. This was the ark that was carried in the wilderness as the Israelites went from Egypt to Canaan.

Upon this original Ark fell the power of YHWH and it had to be handled very carefully so its power would not kill the carriers of the Ark.

Second Ark

The second Ark I saw looked just like the first but it had no power upon it. It was the Ark of Zerubbabel that was used after the people of Israel had returned from exile in Babylon. The name Zerubbabel means, "One sown in Babylon." History shows Israel sought to remain in good favor with the King of Babylon so were divided in their loyalties to YHWH and to the King of Babylon as their 'lord and master'.

Third Ark

The third Ark I saw in this dream was the ark used during the time of King Herod in Jerusalem within Herod's Temple while under Roman occupation. This third Ark only looked like the first Ark of Moses but had nothing of its power or holiness.

Power on the Arks as the True Church

Only the first Ark had the power of YHWH upon it whereas the others only looked exactly like the first. I wondered upon this dream-vision as I was awakening.

Still in the twilight of sleep and partially being awake, I realized that the first Ark as the real Ark was the original Church in Jerusalem founded by Y'Shua and the Apostles. Only this Ark had power and in the same manner only the original Church in Jerusalem as led by James the brother of Y'Shua had power.

The second Ark was mixed with Babylonian ideas and represented the Hellenist church that also grew in Jerusalem right along side the Hebrew Church. We know these two 'churches' co-existed together in the very beginning because it was necessary for there to be 7 men called deacons to be set apart to deal with the disparity over the distribution of food between these two groups.

As history shows, the Hellenist church sought to be in favor with Rome who held to the Babylon religion and distanced themselves even further from the Hebrew Church and its culture. The first writings of scripture were not Greek but Aramaic for the scriptural canon used by the Hebrew Church. These were discarded by the Hellenists and they wrote and

used their 'adapted' Greek versions of the Apostolic letters.

Third Ark is Church of Constantine

The third Ark represented the Church of Constantine who became the head of all Christendom in 325 AD at the Council of Nicea. No Hebrew bishops were invited and only the Hellenist bishops attended this Council in Nicea. It was in this Council that true Christianity was defiled and merged with Roman Paganism. The attending Hellenist bishops were given Stoles as their symbol of authority which were also worn by the Roman Senators. Bishops were then elevated to the status of Roman Senators providing they acknowledged Constantine as the head of the Church.

The Third Ark remains with us and looks exactly like the original Ark but there is no YHWH power within it. It is a fake yet it does draw power from the Satanic Church of Babylon. Ministers who align themselves with this third Ark are unknowingly preparing the way for the rise of the False Prophet, Antichrist and the Beast.

This embraced culture of Satan by naive Christian ministers will provide for the rise of the Harlot Church that sits upon the Beast with 7 heads and 10 horns which is the Holy Roman Empire. This fake Ark looks the same as the first Ark on the outside but on the inside it is filled with death and destruction.

Beware my friend. Just because a 'church' looks like a 'church' does not mean it is the true Church. If it honors the traditions of Romanized Babylon in any way, it is the church of Satan even if you hear the name 'Jesus' in sermons. The fact is the satanic Church reads the name Jesus to mean "je Zeus" which is a Roman sun god like Mithra who was reborn every 25th of December. The symbols and Rites used in worship speak louder than the words you hear from the pulpit.

Signs of the True Church

Here are some of the tell-tale signs for the Satanic church. If you attend a church where they do these things, you can be assured it is not the Church of Y'Shua but the Harlot church of Satan.

1. Keeps the Roman Sunday Sabbath and ignores the Biblical Hebrew Saturday Sabbath.
2. Celebrates the day of Ishtar (Easter) with eggs and rabbits as symbols of 'resurrection' fertility.
3. Celebrates the 25th of December as the rebirth of Mithra (Ra, Zeus, 'jeZues'), the Sun god according to the Julian calendar.
4. Encourages clergy to wear the robes of Rome (Stoles) in showing fealty to Rome and to the Babylon church of Constantine who worshiped Mithra all his life. Constantine was not a true Christian believer.

It is very easy to tell what church you are attending. Are you attending the Roman Church of Babylon or the Hebrew Church of Messiah Y'Shua? If you are attending the Roman Church of Babylon, get out now and find the true Church. If you cannot find a true Church, start one in your home by inviting others to attend on the Saturday Sabbath which starts Friday night at sundown.
