

Templar Factions: Vision

by David Michael, abbotdavidmichael@gmail.com

In the early morning of the 28th of November 2016, I was awakening and was considering the division that I have witnessed within the Templar Orders also known as the Hereditary Templars. I have found that I am in the faction of the Templars who follows YHWH as preached to the world by Y'Shua (Jesus) and the Apostolic Church (Disciples) in Jerusalem before 70 AD.

I was wondering if this division could ever be healed and realized that this was not possible. In fact, war between the factions is inevitable. I had been discovered to be a Hereditary Templar by my own research as confirmed by the Grand Master of the Hereditary Templars of Britannia. I was once sought out by him and offered a position as a Lord Spiritual among the Luciferian faction of the Order. I could not follow Lucifer or his faithful who are known by other names. I chose the YHWH faction and was subsequently rejected by the Luciferian faction. I have since had a visitation by Y'Shua and told I am to be of the Order of Melchizedek which is the faction that opposes the Luciferian faction.

I then saw while musing on this division the following vision in my mind that clarified how the two factions coexist together for a season but by the time of the 33rd degree level of initiation in the Free Masons and at other levels in other secret societies separate. Each secret society has their dividing level in their respective sequence of initiations.

Templars Divided
