

Cry for True Israel

by David Michael, info@glentivar.org

On the morning of the 29th of April 2017, I found myself in Israel. Many people were there talking about what was the future of Israel. None of them were really doing anything related to the land. In this conversation, I mentioned I was an Israelite of the original people. Not much attention was paid to this since so many are now claiming Jewish blood these days in hopes of gaining influence in world affairs led by the antichrist Khazar Jews such as the Rothschilds who are not of the seed of Jacob/Israel.

True Israelites

I then looked over a fence and saw a man and his wife with two sons about 10 years old, twins perhaps in clearing the land. The man was plowing the land with a horse assisted by his wife and the two boys were clearing the old roots and debris that was being raised up from beneath ground by the plow. The man saw me, stopped plowing and came over to me through the fence. I approached the man with great joy and embraced him repeatedly with great joy and thanked him for his commitment to the land of Israel. Now here was a man with his family that was truly committed to the holy land Israel supported by his whole family. It was not just in word but in action. The others in the dream were just talkers and were of no consequence in the matter of true Israel returning back to the land.

Via Delorosa

I then found myself walking down an ancient narrow street in Jerusalem. Perhaps it was the Via Dolorosa (Latin: Way of sorrow) road that was thought to be the path upon which Y'Shua walked carrying the cross to Golgotha. I was suddenly overwhelmed and fell to the ground and drove my fists into the dust of the street in tears and prayed for Israel.

“Lord.... have mercy upon Israel! Bring true Israel back to the land of their forefathers.”

With this prayer, I found some release from the burden. I then looked up to heaven and saw the light of YHWH shining through the clouds from the heavens. I was assured by this sign that my prayer was heard. The encounter then ended.

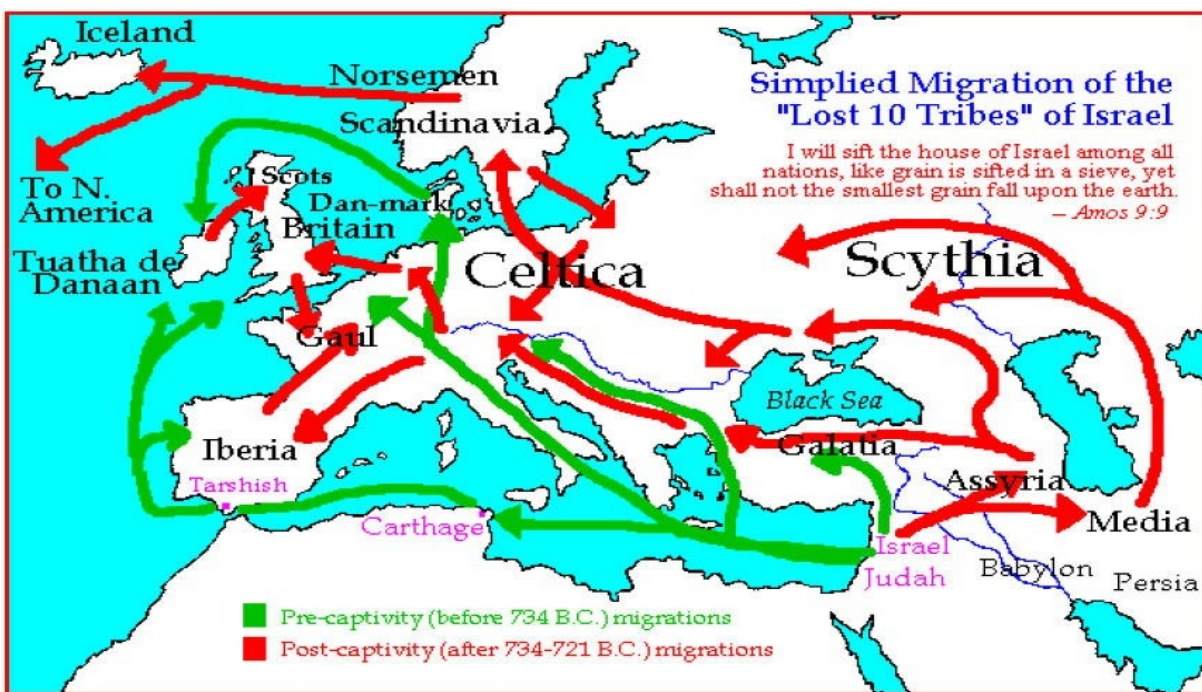

Thoughts

This is one of the most profound encounters I have had that affirms I am an Israelite. It also makes a clear distinction between those who call themselves Jews but have no bloodline to the tribe of Judah which is where the term Jew originated and those who do have a bloodline origin from Jacob. It also affirms that true Israel HAS NOT yet returned to Israel and the so-called Jews in Israel today are imposter Jews claiming to be the people of promise but are not. History shows they are gentile Khazars from the 9th century Khazar Empire who

converted to Babylonian spawned Kabbala Judaism en mass which is not even true Judaism.

The Khazars are a mixed gentile people coming from Canaanite, Edomite, Hittite, Turkish and other racial origins. The fact is the **Jews in Israel today are neither Jewish by blood or Jewish by religion**. It is all an orchestrated deception placed upon the Christian world of the West for personal gain. It is all about getting money and to gain the control of the masses. It is about Esau seeking to steal back the birthright from Jacob/Israel. It is one of the greatest deceptions in the modern world.

So here we are today with the true Israelite bloodline hidden among the gentiles with families still not knowing their Israelite origin. Soon the veil will be rent and the blinders taken off of the eyes as people all over Europe and their colonial countries wake up and realize they are true Israel. Then we will see a migration back to Israel in opposing the Zionist agenda of world domination and enslavement.

I have been shown that many crypto-muslims known as Syrian, Arab and Egyptian will soon side with true Israel and together they will oppose the Zionist antichrist cartel. These indigenous peoples of the Middle East led by their Caliphs will then return to YHWH as the God of their forefathers who was worshiped long before the deceptive worship of the fallen angel Allah when Islam was militarily imposed into the region by Mohammed and his generals.
